

FE CATTLE BLEND

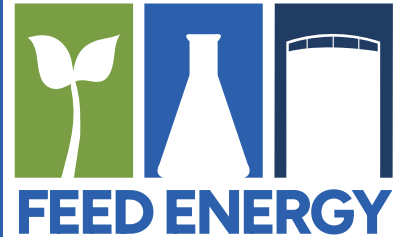

A Base for Better Cattle Gains

Use **FE Cattle Blend** as a base product for liquid feed, an alternative to liquid feed or as a part of an overall liquid feed approach to bring about efficient feed and better weight gains. Packed with micronutrients, our **Cattle Blend** is an economical choice and a terrific source of energy.

WHY CHOOSE FEED ENERGY?

- ✓ **Science:** The science behind Feed Energy assures you of accurate and safe supplemental fat energy levels that optimize feed rations, save money and reduce variability.
- ✓ **Service:** From tank repairs, calibration and service to tank monitoring systems, seven-day-a-week delivery to a dedicated fleet of drivers, Feed Energy's commitment to customer service is second to none.
- ✓ **Safety:** Incoming raw ingredients and produced materials are tested internally utilizing near-infrared spectroscopy and gas chromatography equipment, then validated by independent third-party testing. Feed Energy has earned the Safe Feed/Safe Food certification from the American Feed Industry Association.
- ✓ **Relationships:** From providing custom blends to meeting your deadlines, Feed Energy is committed to the success of your operation. Just as important, the company plays a leading role in enhancing the success of your industry associations and improving the safety and quality of agricultural food production for all.

FE CATTLE BLEND

FE Cattle Blend has been developed for the ruminant diet and may be used as a base product for liquid feed, an alternative to liquid feed or as a part of an overall liquid feed approach. An economic choice to add energy to cattle diets, FE Cattle Blend is a terrific source for several micronutrients in addition to phospholipids. FE Cattle Blend has been specifically formulated for cattle diets but can be custom formulated as well to meet your unique animal nutrition needs.
