

# MGR METABOLIZABLE GROWTH RELEASER

A Base for Better Cattle Gains

Improve cattle reproduction with the Feed Energy **Metabolizable Growth Releaser (MGR)**. This scientifically derived product is formulated from our All Veg 400 blend, an ideal source for phospholipids in ruminant diets. This Safe Feed Safe Food backed product guarantees to serve as a consistent source of linoleic acid, increasing the health and nutrition of calves in the pre-weaning period.

## WHY CHOOSE FEED ENERGY?

- ✓ **Science:** The science behind Feed Energy assures you of accurate and safe supplemental fat energy levels that optimize feed rations, save money and reduce variability.
- ✓ **Service:** From tank repairs, calibration and service to tank monitoring systems, seven-day-a-week delivery to a dedicated fleet of drivers, Feed Energy's commitment to customer service is second to none.
- ✓ **Safety:** Incoming raw ingredients and produced materials are tested internally utilizing near-infrared spectroscopy and gas chromatography equipment, then validated by independent third-party testing. Feed Energy has earned the Safe Feed/Safe Food certification from the American Feed Industry Association.
- ✓ **Relationships:** From providing custom blends to meeting your deadlines, Feed Energy is committed to the success of your operation. Just as important, the company plays a leading role in enhancing the success of your industry associations and improving the safety and quality of agricultural food production for all.

# MGR

**MGR (Metabolizable Growth Releaser)** is a natural metabolizable energy source that releases the growth potential of your animals. **MGR** is scientifically derived and formulated from the production of All Veg 4000 and is a terrific source for phospholipids. **MGR** has been developed for the ruminant diet and may be used as a base product for liquid feed, an alternative to liquid feed or as a part of an overall liquid feed approach. **MGR** assures you of a consistent source of linoleic acid, an essential fatty acid shown to improve reproduction in cattle.
