

PRODUC R2

ProducR2 is our custom-made all-vegetable product created for producers feeding poultry and swine. **ProducR2** offers the antioxidants essential for the animal's health and the metabolizable kilocalories essential for improved weight gain. **ProducR2**'s natural anti-pathogenic properties help improve biosecurity for poultry and pork producers and help to protect their operations from a pathogen outbreak.

WHY CHOOSE FEED ENERGY?

- ✓ **Science:** The science behind Feed Energy assures you of accurate and safe supplemental fat energy levels that optimize feed rations, save money and reduce variability.
- ✓ **Service:** From tank repairs, calibration and service to tank monitoring systems, seven-day-a-week delivery to a dedicated fleet of drivers, Feed Energy's commitment to customer service is second to none.
- ✓ **Safety:** Incoming raw ingredients and produced materials are tested internally utilizing near-infrared spectroscopy and gas chromatography equipment, then validated by independent third-party testing. Feed Energy has earned the Safe Feed/Safe Food certification from the American Feed Industry Association.
- ✓ **Relationships:** From providing custom blends to meeting your deadlines, Feed Energy is committed to the success of your operation. Just as important, the company plays a leading role in enhancing the success of your industry associations and improving the safety and quality of agricultural food production for all.

PRODUCR2

ProducR2 is an antipathogenic product carefully manufactured and developed to mitigate pathogens in your poultry and swine feed. **ProducR2** is a natural energy source scientifically derived from processing vegetable oil-seed products. Naturally rich in antioxidants and containing a proprietary blend of carboxylic acids, **ProducR2** assures you the highest energy source available for the best performance possible. **ProducR2** typically contains 4,000 kilocalories of metabolizable energy per pound and is a line of products for poultry and swine.

PARAMETER	PRODUCT SPECS <i>Typical Analysis</i>
Metabolizable Energy	4,000 Kcal/lb
Total Fatty Acids	>90.0%
Moisture by Karl Fisher	<2.0%
Insoluble Impurities	<1.0%
Unsaponifiable Matter	<2.0%
Pesticides and PCB	Below FDA/EPA tolerance levels
Initial Peroxide Value	<5 meq/Kg
Preservative	Available Upon Request
