

Stim GAIN

FEED SUPPLEMENT

MAXIMIZE YOUR FEED. MAXIMIZE YOUR PROFIT.

StimGain is an ethyl alcohol-based feed supplement designed to support the natural appetite and functions of your broilers, layers, turkey, and other poultry.

Boosting nutrient availability and intake for poultry leads to increased growth, production, and profitability.

KEY BENEFITS:

- Increases nutrient availability
- Increases intakes
- Improves growth rate
- Increases egg production and shell quality
- Easy to handle
- Net return on investments

FEEDING STIMGAIN TO POULTRY

StimGain is easy to handle and can be added to feed by:

- Balancing and formulating diets using nutrient data.
- Can replace soybean meal and added fat in various situations on a pound-for-pound basis.
- Recommended feeding rate of 40-60 lbs. per ton.
